Oceanus in black and white dual gloss finish
Low Version

Castello luxury baths, basins and vanities are designed in the UK and manufactured in a state of the art facility in the USA using hi-grade composite stone materials conforming to environmental policies.

Key Features and benefits include:

- Certified to international ANSI and IAPMO certifications.
- Hard wearing, easy to clean and resistant to scratching and all staining as proven in the hotel industry
- Our range of baths and basins has the appearance of natural stone, but are considerably lighter.
- Our products are fire retardant and resistant to mould, mildew and bacteria.
- Largest range of oval baths developed with the environment in mind using less water relative to size.
- Eco friendly insulation properties help maintain the water temperature in our baths for a longer more relaxing bathing experience.
- Ergonomic contoured designs to enhance comfort and balance when bathing.

Project Design Services

Castello Baths work with a network of interior designers who specialise in interior planning from which they have a team of experienced interior designers, CAD and space planning specialists that are able to envisage your dream.

Using the latest technology our interior designers can redesign your new/ existing bathroom to create an environment that meets your remit.

Castello specialises in the management of project design through to completion, and are fully geared to small or large hotel projects.

Castello offers the largest range of natural stone finishes available in matt and gloss. For project work requiring a specific bespoke design and finish our R&D department will work with you to create your bespoke finish.

Quality

Our luxury products have been designed to meet and exceed stringent quality and comfort standards, where upon they are certified to IAPMO & ANSI International Standards for structural strength and performance of surfaces.

IAPMO tests are conducted in these main areas;

- Materials composition
- Surface finish
- Supporting Structure
- Thermal shock resistance
- Ignition test

ANSI tests are conducted in these main areas;

- Stain resistance: Black crayon, Black liquid show polish, washable blue ink, lipstick, hair dye and iodine solution and red wine.
Chemical resistance: Household ammonia, citric acid solution, hydrogen peroxide, clorex, Lysol, ethyl. Acetate, Drano, acetone and toluene.
 - Water resistance: Resists cracking, crazing, blistering or spalling from water of 46°F and 150°F.
 - Colorfastness: resists fading in colour or surface texture, resistance to ultraviolet degradation and hydrolysis.
 - Impact: Resists cracking and chipping.
 - Load: Resists cracking under a 300 pound weight.
- Products manufactured by Castello baths meet or exceed:
ANSI Z124.1, ANSI Z124.2, ANSI Z124.3, and HUD

Tested to IAMPO & ANSI standards the composite components will withstand the rigours of daily use. This means that the product will continue to look as good as new for years to come.
